PAPER

**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

**ADVISORY ACTION**

Continuation of 3

Applicant argues on p 9 of the remarks filed 2/25/2009 that the proposed claim amendments do not require a new search or consideration. The examiner respectfully disagrees. The proposed amendment by changing the transitional term from “consisting essentially of” to “consisting” and adding “wherein the a top layer has exposed carboxyl groups on the surface” narrows the scope of the claims and therein requires further search and consideration; accordingly the proposed amendment does not materially reduce or simplify the issues for appeal either. Furthermore, there is no reason why the proposed amendments were not presented earlier in prosecution. See 37 CFR 1.116 (b)(3).

In light of the fact that the proposed amendments, filed 2/25/2009, after final rejection will not be entered, Applicant’s arguments filed 2/25/2009 (see p 9-11) are rendered moot.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CHRISTOPHER M. GROSS whose telephone number is (571)272-4446. The examiner can normally be reached on M-F 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner’s supervisor, Christopher Low can be reached on 571 272 0951. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
